

To FCC, I listen to an FM station that comes across on a Fm translator and so do many of my friends. This station KLOVE is enjoyed by all and supplies us with listening opportunities and local information that we cannot get from anywhere else. To be displaced by an LPFM not offering the same type of service would be sad indeed. Many people I know enjoy the station as it now exist and the public interest such as helping the poor and lonely would be hurt by removal of this service. Thank you Bob Pedersen
